Tomas Jefanovas

Full-Stack Engineer

Profile

Full-stack engineer with a design background, trained at Le Wagon in 2026, using code and AI as tools to turn ideas into working projects. Brings over a decade of experience in design and art direction for national museums and galleries, with close attention to detail and a systematic way of working. Experienced in leading projects end to end, working closely with clients and multidisciplinary teams.

Recent web projects

Margate Electronics ↗ · code on GitHub ↗
Archival catalogue website for an electronic music label, with API-synced inventory, automated audio previews and a custom Avo CMS, deployed via CI/CD.
Stack: Ruby on Rails, Hotwire, TypeScript, SQLite, Solid Queue, ffmpeg, Avo, Bandcamp API, Cloudflare Pages and R2, GitHub Actions, Minitest

Halo ↗ · code on GitHub ↗
AI support chatbot for a fictional digital bank, using RAG to ground answers in uploaded PDFs, with clickable source links.
Stack: Ruby on Rails, PostgreSQL (pgvector), OpenAI API, Hotwire

Plant Match ↗ · code on GitHub ↗
Houseplant matching app using a questionnaire and plant data API, with an AI care chatbot. Built as a team in a one-week bootcamp sprint.
Stack: Ruby on Rails, PostgreSQL, Devise, Perenual API, RubyLLM

Selected professional experience

Margate Electronics ↗
Co-founder and creative director, 2023–present
Live event series and independent record label
Curate and promote a programme of live events, and produce physical and digital releases with artists. Secured Arts Council England funding and plan the programme to a fixed budget. Created the brand, merchandise and website.

Public Identity ↗
Designer and art director, 2016–present
Independent practice, freelance and commissioned projects
Specialising in visual identity, campaign and editorial design across print, digital and environmental graphics for arts and cultural organisations, often managing projects, clients and stakeholders directly, from brief to delivery. Clients include V&A, London Museum, National Portrait Gallery, The British Museum, Sadler's Wells and JW3.

Tate ↗
Graphic and digital designer, 2013–2016
Full-time, in-house design studio until 2014, then freelance while at the RCA
Designed campaign identities for major exhibitions across all four Tate galleries and applied them to digital assets, printed collateral and exhibition graphics. Worked closely with marketing, curatorial and interpretation teams, maintaining brand standards throughout a high-volume programme.
